

Bari Model 8171

The cleanest, most efficient modern stove on the market.

Efficiency
76%
HHV

HeatLife™
14
Hours

EPA Certified
0.94
g/hr

Features

TruHybrid™ Efficiency

The EPA certified Bari wood stove combines HearthStone's TruHybrid™ combustion technology with German quality and modern style.

225° Rotation

The Bari rotates smoothly and easily so you can enjoy the fire as you move around your home.

Natural Convective Heat

Hase stoves are built with 2 layers. The space between the inner and outer layers creates a convective air channel that circulates warm air through your home and reduces the outer temperature of the stove.
